# Cybersecurity Compliance & Awareness at Iarnród Éireann

---

**Ensuring Safe, Resilient,  
and Compliant Operations**

# Agenda

- 1 Key Cybersecurity Legislation
- 2 Implication for Iarnród Éireann
- 3 Tools to Assist Compliance
- 4 Need for a Security Awareness Programme
- 5 Implementing an Effective Awareness Programme

# Key Cybersecurity Legislation

## *NIS2 Directive*

Addresses secure networks, swift incident reporting, and top-level accountability.

## *GDPR*

Governs personal data protection; 72-hour breach reporting rule.

## *Data Protection Bill*

Enforces GDPR in Ireland; includes DPC enforcement and criminal penalties.

# Implications & Requirements for Iarnród Éireann

## ✓ Risk Management & Governance

Board-level oversight; data protection by design

## ✓ Incident Reporting

24-hour (NIS2) vs. 72-hour (GDPR) timelines.

## ✓ Accountability & Penalties

Substantial fines; potential criminal charges (DPA 2018).

## ✓ Safeguarding Passenger Data

Compliance + public trust.

# Tools & Technologies to Assist Compliance

- ➡ SIEM & SOAR: Centralized monitoring, automated response.
- ⚠️ Vulnerability Management: Regular scans (Nessus, Qualys) & patching.
- ⌚ GRC Platforms: Map legal requirements, track risks & audits (e.g., RSA Archer).
- 👤 IAM & PAM: Secure access control, multifactor authentication.
- 📄 Encryption & DLP: Safeguard personal data (GDPR/DPA).

# The Need for a Security Awareness Programme

**Human Factor:**  
Employees are our first  
(and last) line of defense.

**Legal Mandate:**  
NIS2, GDPR, and DPA 2018  
expect staff training.

**Protecting Data:**  
Reduces phishing success,  
accidental disclosures.

**Building a Culture:**  
Everyone owns  
cybersecurity, not just IT.

# Implementing an Effective Awareness Programme

---

## Tailored Training

**Basics for all, plus role-specific and executive modules.**

## Delivery Methods

**E-learning, phishing simulations, quick in-person briefings.**

## Measuring Success

**Track completion, test with simulated attacks, gather feedback.**

## Continuous Improvement

**Refresh content, leadership support, empower ‘security champions.’**
